

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY

MEMORANDUM

DATE: July 15, 1987

TO: Monte Nienkirk

FROM: Kerry Keller *X* and Robert Wengrow *RW*

SUBJECT: SUGGESTED SITE FOR HRS SCORING
2010300031 - WINNEBAGO COUNTY
ROCKFORD/ROCKFORD PRODUCTS, PLANT #3
Superfund/HRS

EPA Region 5 Records Ctr.

393599

On July 13, 1987, Mr. Bob Phillips, 817-18th Avenue, Rockford, (815)965-2951, visited the Rockford Regional Office to inform the IEPA that from 1970 to 1975 Rockford Products, Plant #3 routinely dumped a cyanide sludge behind the plant which was then buried onsite. Mr. Phillips worked for Rockford Products from 1970-1985 and was personally involved with the cyanide onsite disposal operation. His supervisor at the time was Mr. Larry Hammond.

Based on the above information it is recommended that the site be scored for potential NPL or SRAPL listing. The site currently shows no obvious environmental threat which would require immediate removal action.
